Huntsville (Ala.) Republican. "FOR THE BLOOD IS THE LIFE."

See Deuteronomy, Chap. xil, Verse 23. The blood being the source from which our systems are built up, and from which we derive our mental as well as physical capabilities, how important that it should be kept pure. If it contains vile, festering poisons, all organic functions are weak-ened thereby. Settling upon important organs, as the lungs, liver, or kidneys the effect is most disastrous. Hence, it behooves every one to keep their blood in a perfectly healthy condition, and more especially does this apply at this particular season of the year than st any other. No matter what the exciting cause may be, the real cause of a large proportion of diseases is bad blood. Now Dr. Pierce does not wish to place his Golden Medical Discovery in the catalogue of quack patent mostrums by recommending it to care every disease, nor does he so recommend it, on the contrary there are hund, eds of diseases that he acknowledges it will not cure; but what he does claim is this, that there is but one form of blood disease that it will not cure, and that disease is cancer. He does not recommend his Discovery for that FOR THE BLOOD IS THE LIFE." that it will not cure, and that disease is cane
He does not recomment his Discovery for the
disease, yet he knows it to be the most searchis
blood cleanser yet discovered, and that it frees t
blood and system of all other known poisons,
they snimal, vegetable, or mineral. The Gold
Discovery is norranted by him to cure the wor
forms of skin disease, as all forms of blotche
pimples and cruptions, also all glandalor swellin
and the worst forms of Scrotulous and ulcerat,
sores of nock, legs or other parts, and all scrod
lous disease of the bones, as white swellings, feve
sores, hip joint and spinal diseases, all of whit
belong to scrotulous diseases.

CONFIRMED.-HIP JOINT DISEASE CURED W. GROVE STATION, Ia., July 14, 1872. Dr. Pierce, Buffalo, N. V. Dis. Perrices, Buffalo, N. Y.

Dear Sir—My wile first became lame nine years ago. Swellings would appear and disappear on her hip, and she was gradually becoming reduced, and her whole system rotten with disease. In 1887 a swelling broke on her hip, discharging large quantum of the property of the second range of towntities, and since that time there are several open-ings. Have had five doctors at an expense of \$125, who say nothing will do any Igood but a surgical

operation.

July 16th, 1813, he writes thus: My wife certainly has received great benefit from the use of your Discovery for ane was not able to get off the bed and was not expected to live a week when she commenced using it, a year ago. She has been doing most of her work for over six months. Has used twenty bottles and still using it. Her recovery is considered as almost a miracle, and we stribute it all to the use of your valuable medicine. I can cheerfully recommend it as a blood purifier and strength restorer.
